

Preface

The organizing Committee of MEHSS 2023 warmly welcome authors to join 3rd International Conference on Management and Education, Humanities and Social Sciences (MEHSS 2023), which was held in Liverpool, United Kingdom during November 11-12, 2023.

The aim of the conference is to provide an interactive platform for the academicians, R & D organizations, industries, innovators, entrepreneurs, government agencies and policy-makers etc., from both UK and abroad to exchange ideas on recent researches and advances in the domain of management and education, humanities and social sciences with its prospective application in the various interdisciplinary domains of engineering. This two-day conference is being organized in technical association with Asian Union of Information Technology and will include invited keynote talks and oral paper presentations from both academia and industry to ignite our young minds, to initiate them in the field of meaningful research and thereby enrich their existing knowledge.

This MEHSS 2023 had received 79 manuscripts and 32 papers were accepted by the reviewers. By submitting a paper to MEHSS, the authors agree to the review process and understand that papers undergo a peer-review process. Manuscripts will be reviewed by appropriately qualified experts in the field selected by the Conference Committee, who will give detailed comments and-if the submission gets accepted-the authors submit a revised version that considers this feedback. All papers are reviewed using a double-blind review process: authors declare their names and affiliations in the manuscript for the reviewers to see, but reviewers do not know each other's identities, nor do the authors receive information about who has reviewed their manuscript. The Committees of MEHSS invest great efforts in reviewing the papers submitted to the conference and organizing the sessions to enable the participants to gain maximum benefit.
